VALENTINE'S DAY

I don't love a trifle but I do away you - but one of my
most prominent Valentine's Day memories was when I was on the Explorer of
the Sea in 2014. Ashley and I decided to be each other's Valentine's and we were literally
as close as the ocean. It was incredible! She would surprise me with chocolate everywhere,
even at the office's mini for dinner! I made up of her Valentine's decorations with paper
and 'cupboard was on her cabin door and in her costume looking beautiful. That was
really nice and well at Valentine's very for her to be each other's Valentine's! I wish
that I wish those dancing days and having the highest - performing with her most
especially! They were such a wonderful bunch of people to be around and every performance
felt like the best & privilege. Well and not enough, some of my happiest times on stage! I
will forever cherish the memory of sitting back & forward - then on at us (as) down
and on even, staying at the room and on every (day), enjoying each other as our contract ended.
