

MASCOT FEATURES

- 1** Choose an object you'd like to make a mascot for
- 2** Break the object down into it's simplest block shapes
- 3** Take that shape and shorten/fatten it. Option: put a slight bend in it
- 4** Add a retro kawaii face. Tip: faces look cuter placed lower and with wide set eyes
- 5** Place arms and feet on your mascot
- 6** Option: add a white bean/oval shaped highlight to your mascot and a super bold outline.
- 7** Color to finish. A colored linework has a softer effect than black.
