

MEMORY TO MEMENTO

Use this PDF to reference drawing the templates or cut them out as is.

As you put together your "story", accordion fold the template but wait to glue it until you're finished. Mark the side you will glue to the phone with a big red "X" so you don't accidentally work on that spread.

The dimensions of each mini page, printed at 100% from this PDF are roughly

Width: 4.4cm

Height: 7.8cm

I would suggest printing "full page" photos at 4cmx7cm if you're using the template straight from this page. Alternatively, print at any size and trim to fit (sometimes I do that if I can't be bothered with all the measuring).
