"WHAT IF" REFERENCE SAMPLES

There's a treasure trove of growth to find when diving into your curiosities and finding answers to the "what if" questions we ask ourselves. Lean into your more inquisitive side and indulge those thoughts as often as you can. Whether you find the work is better, worse or just "different", the process of answering those "what if" questions will lead you towards innovating your process and adopting a posture of experimental learning. If you don't answer the "what if" questions, you'll only be left wondering "what if"... Who knows what you will find if you go seeking the answers.

Feel free to use this image above to reference or print onto watercolor paper and try your hand at rendering in the ways you might be curious about.
