

Below are some of my favorite finished and almost finished journal pages from the "Breaking In A New Journal" video. My journal is a small, hardcover Moleskine with a Sojourner USA "ROWGUE" reversible folio leather cover. I've saved a lot of my written journaling for after the video because I wanted the scanned images to be easy to reference. Feel free to use your PLAY2EST collage sheets and Digital Downloads to follow along with the examples shown. I am more than happy for you to recreate any pages in their entirety, like always, these tutorials are for you to learn and enjoy. In total, you're seeing about 8 hours of play time (approx 7 hours filmed) in this journal so far. Some days I grab 15 minutes, other days I indulge in an hour or two. How long you spend playing does not directly relate to how much you'll enjoy the finished pages, I just mention it in case you're curious.
