BEGINNER
Simply add your Who elf to the top of the ornament and add a string (vertical line) from the hook to the top of your page. A negative coloring style works well for finishing your sketches.

INTERMEDIATE
Add your Who ornament to a stylized branch that fills your page diagonally. Tip: mark in the reference shapes for your ornament before you draw your branch so you can compose it evenly.

ADVNACED
Illustrate 3 Who ornaments that overlap each other and render with sketchy pen lines and loose watercolor techniques.
