

DO IT FROM THE 'GRAM

Use this PDF Printable to reference drawing the templates or simply cut them out and use as is.

As you assemble your “instastory”, accordian fold the template but wait to glue into your journal until you’re finished. Mark the face you will glue to the journal with a big “X” so you don’t accidentally work on that page.

You can re-size this to fit any journal. As long as the pages of your accordian fold match the size of your “phone screen”, the effect will be the same.
